Profit after tax for the period	5,185	1,169	4,016	20,498	2,226	18,272

The Group was able to maintain its revenue at the same level with the previous year corresponding quarter with a slight rise by 1.24% to RM104.06 million in the second quarter ended 30 September 2022. The higher revenue for this period was mainly contributed by the credit financing segment, amounting to a significant increase of approximately 1805% to RM1.29 million compared to the same quarter last year. The Group's after-tax profit for the quarter under review soared to RM5.19 million from the after-tax profit of RM1.17 million in the previous year corresponding quarter. This was mainly due to the unrealised foreign exchange gain of RM4.43 million following the strengthened greenback against the Ringgit Malaysia.

On a half-yearly basis, the Group recorded higher revenue of RM273.36 million as compared to RM202.29 million achieved in the previous year's corresponding period. The after-tax profit of the Group of RM20.5 million for the period under review jumped eightfold as compared to the after-tax profit of RM2.23 million recorded in the previous year's corresponding period. The highest-ever profit was in tandem with the higher revenue in Hong Kong Apparel coupled with the foreign exchange gain of RM6.7 million and a gain on disposal of subsidiaries, Mega Label (Malaysia) Sdn. Bhd. ("MLM") and Mega Label (Penang) Sdn. Bhd. ("MLP") amounting to RM8.3 million.

15. COMMENT ON MATERIAL CHANGE IN THE QUARTERLY RESULTS

Total revenue dropped 38.53 per cent to RM104.06 million for the second quarter ended 30 September 2022, from the preceding quarter of RM169.30 million. The after-tax profit decreased to RM5.2 million from RM15.3 million in the preceding quarter. These were mainly due to the significant fall in revenue from China Apparel in this quarter and the one-off gain on the disposal of subsidiaries in the preceding quarter. The drop in revenue is partly attributed by China's dynamic zero COVID-19 policy.

16. COMMENTARY ON PROSPECTS

A global wave of high inflation, aggressive monetary tightening, and the risk of recession has forced households to confront a rapidly rising cost of living. China's accession to the dynamic zero COVID-19 policy, which includes sudden lockdowns, ongoing testing, and movement restrictions, has weighed on consumer confidence and adversely affected the manufacturing sector. However, while there have been some headwinds, as mentioned, we expect this to be manageable in the apparel segment, thanks to the continued support of our key customers.

With respect to the credit financing segment, management will continue to exercise prudence in the loan approval process with a focus on rigorous credit risk assessment to minimize nonperforming loans. In the medical field, apart from steady self-development or organic growth, the Board will also pursue the market expansion plan.

The Group will continue to leverage operating efficiency and cost-saving initiatives to achieve better performance.
